

## TEXAS JAMBOREE

Themed "Texas Jambari", the staff of George Street Health Centre hosted yet another successful evening of togetherness and relaxation for their chronic disease patients on November 7<sup>th</sup>, 2019. The fifth annual event proved to be fun filled and jam packed, complete with interactive activities, entertainment by the staff and of course tasty refreshments, much too sheer pleasure and appreciation of the enthusiastic patients.

Staff members of the George Street Health Centre.

Adding to the delight was the presence of Minister of Health, The Honorable Terrence Deyalsingh who brought greetings and took some time to mingle with all present

The NWRHA congratulates all staff of the George St Health Centre for their commitment towards making a positive impact on the health status of our patients.

Minister of Health Terrence Deyalsingh

*INSIDE NWRHA*

*NOVEMBER 2019*

*VOLUME 1*

*“Your Safety, Our Priority”*: the theme of the Radiography and Radiation Therapy Departments commemoration of Radiologic Technology Week during 4<sup>th</sup> to the 8<sup>th</sup> November 2019 at the National radiotherapy Centre, St James Medical Complex. Observed annually, the primary day is recognized on 8<sup>th</sup> November, which coincides with Wilhelm Roentgen’s discovery of X-rays in 1895.

*This year’s activities included a display of posters created by twelve of our Radiotherapists to reflect fundamentals of safety practices within the use of X-rays and Radiation Therapy.*

*Daily checks features such as; pre-planning safety duties, pre-treatment safety duties and treatment safety checks were also available. All presentations highlighted the practices which must be engaged to ensure protection of staff and all in close proximity to radiological procedures.*

*The NWRHA commends and extends heartfelt thanks to the staff of the National Radiotherapy Centre for continued excellence in service and congratulates all on another successful Radiologic an technology week. Your Safety, Our Priority”*: the theme of the Radiography and Radiation Therapy Departments commemoration of Radiologic Technology Week during 4<sup>th</sup> to the 8<sup>th</sup> November 2019 at the National radiotherapy Centre, St James Medical Complex. Observed annually, the primary day is recognized on 8<sup>th</sup> November, which coincides with Wilhelm Roentgen’s discovery of X-rays in 1895.
